A Resource Guide for Providers

Residential and Outpatient Substance Abuse Treatment Facilities in Philadelphia for Pregnant and Parenting Women

The purpose of this document is to provide a list of residential and outpatient substance abuse treatment facilities serving pregnant and parenting women.

ASSESSMENT

Upon referral by a clinician, assessment is done through Community Behavioral Health (CBH) for insured persons and Behavioral Health Specialist Initiative (BHSI) for uninsured persons.

WALK IN ASSESSMENT

Walk in assessment is also available at two different sites, Gaudenzia House and North Philadelphia Health System.

REFERRAL

Upon assessment by CBH/BHSI, patients are referred to outpatient treatment facilities.

REASSESSMENT

Reassessments for residential care needs are performed as needed.

ABOUT THE HEALTH FEDERATION OF PHILADELPHIA

Founded in 1983, the Health Federation of Philadelphia serves as a keystone supporting a network of Community Health Centers as well as the broader base of public and private-sector organizations that deliver health and human services to vulnerable populations. We promote community health by improving access to and quality of health care; by identifying, testing and implementing solutions to health disparities; and by providing training and technical assistance to help other organizations operate more efficiently and effectively.

**Produced in collaboration
with the Philadelphia
Department of Public Health.**
