# HEALTH CENTER CONTROLLED NETWORK
For Health Centers in Pennsylvania

» *Promoting effective use of health IT solutions*

» *Improving data collection & analysis*

» *Increasing secure electronic data exchange*

» *Advancing clinical & operational quality improvement*

ABOUT HCCN

HCCN is a grant-supported program open to Federally Qualified Health Centers and look-alikes across Pennsylvania. The project focuses on supporting patient-centered health care delivery and population health. HCCN optimizes health center use of information technology tools and supports quality improvement efforts such as data collection, management, analysis, and reporting. The HCCN data warehouse represents deidentified health services and outcomes data for over 500,000 health center patients in Pennsylvania.

PROJECT EXAMPLES

» Consultation on Patient-Centered Medical Home transformation & recognition

» UDS data validation & reporting support

» Help with understanding Meaningful Use regulations & attesting/receiving incentives

» Support for HIPAA compliance & privacy and security requirements

» Help with understanding and engaging with Health Information Exchange

BENEFITS OF PARTICIPATION

When you join HCCN, you will have access to population health management and data warehouse tools such as i2i Tracks and Pop IQ. HCCN provides support for this software and additional expert, individualized health IT consultation. Expert and peer support groups and EMR user groups provide additional assistance for HCCN participants.
